## ABOUT

Set among towering baobab trees on the shores of Lake Manyara, our lodge is an intimate sanctuary where the rhythms of nature dictate the pace of your day. Tree-climbing lions, flocks of pink flamingos, and elephants bathing in the lake — these are not once-in-a-lifetime sightings here; they're part of the daily spectacle.

Manyara Baobab Lodge offers 30 comfortable rooms, each thoughtfully positioned to maximize views while maintaining privacy. The warm, earthy interiors reflect the surrounding landscape, with locally crafted furniture and soft natural fabrics. Step outside to winding garden paths shaded by ancient baobabs, leading to our open-air restaurant where chefs prepare dishes inspired by both Tanzanian tradition and international cuisine.

Whether you're here for the world-class birdwatching, the iconic tree-climbing lion sightings, or simply to decompress in one of Tanzania's most beautiful settings, Manyara Baobab Lodge offers a refuge that feels both wild and deeply comfortable.

## HIGHLIGHTS

- Surrounded by ancient baobab trees — some over 800 years old
- Famous tree-climbing lion sightings in Lake Manyara National Park
- World-class birdwatching with over 400 recorded species
- Flamingo migrations on Lake Manyara's alkaline shores
- Open-air restaurant serving Tanzanian and international cuisine
- Gateway to Lake Manyara, Ngorongoro, and the Northern Circuit
