## ABOUT

Migration Undercanvas distills the safari experience to its most essential and magical form — sleeping beneath canvas as the sounds of the Serengeti fill the night air. Located in Nyamburi Village, this luxury mobile camp offers 14 elegantly designed tents that move with the Great Migration, ensuring you're always positioned for extraordinary wildlife encounters.

Each tent is powered by solar energy and features comfortable bedding with full mosquito netting, warm-water showers, and thoughtful bush-luxury amenities. Step outside your tent at dawn and you might find zebra grazing nearby or hear the distant call of a lion. This is camping elevated to art form — raw, authentic, yet wrapped in comfort.

Open-sky dining prepared by our private chef, evening bonfires that gather guests under a canopy of stars, and the ever-present soundtrack of the African bush make Migration Undercanvas an experience that transcends accommodation. It's a return to something primal and deeply human.
